

## Super Mega Awesome 3a List

The following conditions/concepts list was generated from **medical school, student, and the GMC's MLA condition lists**. Conditions relating **to more than one area are listed under each** and therefore may appear more than once (e.g. in paediatrics) so don't be intimidated by the size!. This resources is intended as a guide and is not comprehensive of the entire MBChB curriculum. There may be mistakes or things omitted, if you spot any or have anything you think needs adding please email me at [JSheridan1@sheffield.ac.uk](mailto:JSheridan1@sheffield.ac.uk)

## Phase 3a

### Neurology

- Alzheimer's Disease
- Parkinson's disease
- Essential tremor
- Vascular Dementia
- Motor neurone disease
- Multiple sclerosis
- Muscular dystrophies
- Huntington's disease
- Brain abscess
- Meningitis
- Guillain-Barre syndrome
- Encephalitis
- Herpes Zoster
- Malaria
- Brain metastases
- Acoustic neuroma
- Metastatic disease
- Bulbar palsy
- Cerebellar Disease
- Cerebral palsy and hypoxic-ischaemic encephalopathy
- Bell's palsy
- Epilepsy
- Febrile convulsion
- Extradural haemorrhage
- Stroke
- Transient ischaemic attacks
- Subarachnoid haemorrhage
- Subdural haemorrhage
- Giant Cell Arteritis
- Migraine
- Other Headaches
- Trigeminal neuralgia
- Horner's syndrome
- Peripheral nerve injuries/palsies/lesions
- Diabetic neuropathy
- Radiculopathies

- Spinal cord compression and Cauda Equina
- Spinal cord injury
- Anterior cord syndrome
- Ménière's disease
- Delirium
- Chronic fatigue syndrome
- Wernicke's encephalopathy
- Narcolepsy
- Mononeuropathy
- Myasthenia gravis
- Neurofibromatosis
- Neurological Emergencies
- Normal pressure hydrocephalus

### Geratology

- Stroke
- Benign paroxysmal positional vertigo
- Delirium
- Dementias
- Parkinson's disease
- Falls
- Frailty
- Osteoporosis
- Lower limb fractures
- Cardiac failure
- Constipation
- Urinary incontinence
- Malnutrition
- Hyperthermia and hypothermia
- Medicolegal/Ethics
- Non-accidental injury
- Polypharmacy
- Pressure sores
- Squamous cell carcinoma

### Psychiatry

- ADHD
- Mood disorders - depression
- Autistic spectrum disorders

- Bipolar disorders
- Anxiety
- OCD
- Post-partum depression/psychosis
- PTSD
- Old-age psychiatry
- Learning disabilities
- Psychosis
- Schizoaffective disorder
- Schizophrenia
- Somatisation disorder
- Other delusional disorders
- Personality disorders
- Phenomenology
- Psychopharmacology
- Counselling and psychological therapy
- Hypnotics
- ECT
- Phobia
- Psychiatric Emergencies
- Substance abuse
- Substance misuse
- Addictive behaviours
- Drug Overdose
- Alcoholism and withdrawal
- Self-Harm
- Suicide and risk
- Mental health law
- Wernicke's encephalopathy
- Cognitive impairment
- Dementia and Delirium

## Paediatrics

### **Respiratory**

- Pneumonia
- Croup
- Asthma
- Virally Induced Wheeze
- Bronchiolitis
- Cystic Fibrosis
- Acute Epiglottitis

### **ENT**

- Otitis media
- Grommets
- Glue ear
- Deafness

### **Ophthalmology**

- Periorbital cellulitis
- Squint

### **Cardiology**

- Septal defects
- Heart failure
- Cyanotic heart disease
- Rheumatic fever
- Arrhythmias
- Infective endocarditis

### **GI**

- GORD
- Poor feeding
- Pyloric stenosis
- IBS
- Gastroenteritis
- Constipation
- Appendicitis
- Hernia
- Inflammatory bowel disease
- Coeliac disease

- Failure to thrive
- Marasmus
- Kwashiorkor
- Hirschsprung's
- Intussusception
- Meckel diverticulum
- Toddler's diarrhoea
- Colic
- Cow's milk protein allergy
- Biliary atresia
- Choledochal cyst
- Neonatal hepatitis syndrome
- Liver failure

### **Renal/Urinary**

- UTI
- Pyelonephritis
- Nocturnal enuresis
- Acute and chronic renal failure
- Nephrotic syndrome
- Nephritic syndrome
- Hypospadias
- Phimosis
- Renal malformation
- Vesicoureteric reflux
- Haemolytic uraemic syndrome

### **Dermatology/Allergy**

- Eczema
- Stephens-Johnson syndrome
- Allergic rhinitis
- Urticaria and angioedema
- Anaphylaxis
- Birth marks
- Rashes

### **Infectious Disease**

- Kawasaki's disease
- Measles
- Chicken pox

- Rubella
- Diphtheria
- Scalded skin syndrome
- Whooping cough
- Polio
- TB
- HIV
- Meningitis
- Encephalitis
- Slapped cheek syndrome
- Impetigo
- Candida
- Toxic shock syndrome
- Scarlet fever
- Coxsackie's disease
- Immunodeficiency

### **Neurology**

- Developmental delay
- Febrile convulsions
- Childhood epilepsy

### **Psychiatry**

- ADHD
- Autistic spectrum disorder
- Anorexia nervosa
- Bulimia nervosa

### **Endocrine/Reproductive**

- Undescended testes
- Testicular torsion
- Premature sexual development
- Pica
- Hypothyroidism
- Gonadotrophin deficiency
- Kallman syndrome
- Hypothalamic tumours
- Congenital adrenal hyperplasia
- Androgen insensitivity syndrome
- Obesity

## **Haematology**

- Microcytic anaemia
- Thalassaemia
- Haemolytic disease of the newborn
- Sickle cell anaemia
- Fanconi anaemia
- Haemophilia
- Von Willebrands disease
- Immune thrombocytopenia

## **Oncology**

- Leukaemia
- Brain tumour
- Wilms tumour
- Neuroblastoma
- Retinoblastoma
- Bone tumour
- Hepatoblastoma

## **Genetics**

- Klinefelter's syndrome
- Turner's syndrome
- Down syndrome
- Edwards syndrome
- Patau syndrome
- Fragile X syndrome
- Cystic fibrosis
- Muscular dystrophy
- Angelman's syndrome
- Prader Willi syndrome
- Noonan syndrome
- Williams syndrome

## **MSK**

- Osteogenesis imperfecta
- Rickets
- Transient synovitis
- Septic arthritis
- Osteomyelitis
- Perthes disease

- Discoid meniscus
- Slipped femoral epiphysis
- Osgood schlatters
- Developmental dysplasia of the hip
- Juvenile idiopathic arthritis
- Scoliosis
- Torticollis

## **Neonatology**

- Resuscitation
- Respiratory distress syndrome
- Bronchopulmonary dysplasia
- Meconium aspiration
- Hypoxic ischaemic encephalopathy
- TORCH infection
- Neonatal jaundice and kernicterus
- Necrotising enterocolitis
- Gastroschisis
- Oesophageal atresia
- Bowel atresia
- Gestational Diabetes
- Maternal Hyperthyroidism
- Hypoglycaemia
- Group B strep infection
- Listeria infection
- HSV encephalitis
- Cleft lip and palate

## **Women's Health**

### **Urogynaecology**

- Cystocele
- Urinary incontinence
- Urinary tract calculi
- Uterovaginal prolapsed
- Overactive bladder
- Rectocele
- Genital tract fistula

### **Gynaecology**

- Abnormal formation of the female organs
- Androgen insensitivity syndrome
- Menarche
- Menopause
- Adenomyosis
- Asherman's syndrome
- Lichen sclerosis
- Atrophic vaginitis
- Vulval cancer
- Vaginal cancer
- Cervical cancer
- Cervical screening (HPV)
- Dysfunctional endometrial bleeding
- Endometrial cancer
- Endometrial polyps
- Endometriosis
- Fibroids
- Hydatidiform mole
- Prolactinoma
- Ovarian cancer
- Ovarian cyst
- Ovarian torsion
- Pelvic inflammatory disease
- Polycystic ovary syndrome

### **Obstetrics**

- Baby blues
- Depression
- Postpartum depression

- Puerperal psychosis
- Ectopic pregnancy
- Miscarriage
- Termination of pregnancy
- Multiple pregnancy
- Obesity and pregnancy
- Diabetes in pregnancy (gestational and pre-existing)
- Essential or secondary hypertension
- Gestational hypertension
- Pre-eclampsia and eclampsia
- Anaemia
- VTE in pregnancy
- Gonorrhoea in pregnancy
- Group B streptococcus infection
- Chlamydia in pregnancy
- Syphilis in pregnancy
- Bacterial vaginosis
- Puerperal infection
- Trichomonas vaginalis in pregnancy
- UTI in pregnancy
- Varicella zoster in pregnancy
- Hypoactive uterus
- Oligohydramnios
- Polyhydramnios
- Malpresentations
- Cephalopelvic disproportion
- Uterine rupture
- Premature labour
- Premature rupture of membranes
- Cord prolapse
- Instrumental delivery
- Obstructed labour
- Placenta Accreta Spectrum
- Placenta praevia
- Placental abruption
- Vasa praevia
- Postpartum haemorrhage
- Rhesus disease of the newborn
- Low birthweight infant and placental in-

- sufficiency
- Pre-menopausal syndrome

### **Breast Medicine**

- Benign breast lumps
- Breast abscess/mastitis
- Breast cysts
- Breast cancer
- Ductal ectasia
- Fibroadenoma
- Implants
- In situ carcinoma
- Pagets disease of the nipple
- Papilloma

### **Sexual Health**

- Bacterial vaginosis
- Thrush
- Trichomoniasis
- Balanitis
- Chancroid
- Chlamydia
- Lymphogranuloma Venereum
- Syphilis
- Genital herpes
- Genital warts
- Gender medicine
- Gonorrhoea
- HIV
- Pubic lice
- Sexual dysfunction

## **General practice/Primary Care**

This section will have the most overlap and can be thought of as what a GP would do when presented with these conditions.

- Acne vulgaris
- Acute bronchitis
- Acute stress reaction
- Allergic disorder
- Anaemia
- Anal fissure
- Anaphylaxis
- Anxiety disorder: generalised
- Anxiety, phobias, OCD
- Arrhythmias
- Asthma
- Atopic dermatitis and eczema
- Atrophic vaginitis
- Bacterial vaginosis
- Bell's palsy
- Benign eyelid disorders
- Benign paroxysmal positional vertigo
- Benign prostatic hyperplasia
- Breast abscess/ mastitis
- Bronchiolitis
- Bursitis
- Candidiasis
- Chlamydia
- Chronic fatigue syndrome
- Chronic kidney disease
- Chronic obstructive pulmonary disease
- Conjunctivitis
- Constipation
- Contact dermatitis
- Croup
- Crystal arthropathy
- Cutaneous fungal infection
- Cutaneous warts
- Dementias
- Depression

- Diabetes mellitus type 1 and 2
- Disease prevention/screening
- Diverticular disease
- Essential or secondary hypertension
- Fibromyalgia
- Folliculitis
- Gastro-oesophageal reflux disease
- Gonorrhoea
- Haemorrhoids
- Herpes simplex virus
- Hiatus hernia
- Hypothyroidism
- Impetigo
- Infectious mononucleosis
- Influenza
- Irritable bowel syndrome
- Lower limb soft tissue injury
- Lyme disease
- Measles
- Menopause
- Migraine
- Mumps
- Obesity
- Osteoarthritis
- Osteoporosis
- Otitis externa
- Otitis media
- Parkinson's disease
- Pelvic inflammatory disease
- Peripheral vascular disease
- Polymyalgia rheumatica
- Prostate cancer
- Psoriasis
- Radiculopathies
- Reactive arthritis
- Rhinosinusitis
- Substance use disorder
- Syphilis
- Tension headache
- Tonsillitis
- Trichomonas vaginalis
- Trigeminal neuralgia
- Upper limb soft tissue injury
- Urinary incontinence
- Urinary tract infection
- Urticaria
- Varicella zoster
- Varicose veins
- Vasovagal syncope
- Venous ulcers
- Viral exanthema
- Viral gastroenteritis
- Whooping cough
